

Tom has 24p. How could he spend it?

How many different ways can you find?

twinkl

Tom, Stephen and Jamie are in a line. They each have one ice lolly. There is an orange, a yellow and a red lolly.

Tom is in the middle with a yellow lolly. Jamie is on the left and does not have a red lolly. Where is Stephen and what colour ice lolly does he have?

twinkl

Charlie is 4 years younger than his brother Paul. How old might each of them be?

twinkl

Find 2 numbers next to each other that add up to 23.
