

# Premises: Brinsworth Whitehill Primary School Activity and/or Environment to be assessed: Covid-19

## Assessors: Mrs. A. Lee, Mr. L. Rushforth, Mr. T. Hardcastle, Mr. M. Turton, Mr. M. Sutton

### Date: May 2021

#### Review Date: June 2021

Key (People at risk)	Likelihood (L)	Severity (S)	Risk Calculation		Risk Rating
E = Employee YP = Young Persons	1. Very Low (rare/very unlikely)	1. Insignificant			
P = Public	2. Low (unlikely)	(nuisance/discomfort)	Likelihood x	1-6 Low Risk = Monitor	
C = Contractors	3. Medium (Could	2. minor (no lost time)	Severity = Rating	8-12 Medium Risk = Monitor, review & reduce risk where possible	
V = Visitors	occur/Possible)	3. Moderate (time loss)		14-25 High Risk = Further action required	
EM = Expectant Mothers	4. High (likely to	4. Significant (serious/incapacity			
	occur/probable)	to work			
	5. Very High (near certain to	5. Major (death)			
	occur)				

Premises: Wickersley Partnership Trust - mitigation of risk addendum to Trust COVID-19 risk assessment

Activity and/or Environment to be assessed: The purpose of this risk assessment is to address the additional risk of the transmission of Covid-19 infection during school operating hours. It has been updated in line with guidance from the UK Government as this has changed most recently in May 2021

https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak

https://www.gov.uk/government/publications/face-coverings-in-education

PLEASE NOTE: A 'ONE-SIZE FITS ALL' APPROACH IS NOT FEASIBLE, SO HEADTEACHERS WILL MAKE INFORMED JUDGEMENTS AND ADAPT THE GENERIC WPT RISK ASSESSMENT TO MEET THEIR OWN SPECIFIC PRIMARY/SECONDARY SCHOOL CONTEXT AND WILL ASSIGN DAILY RESPONSIBILITIES TO STAFF (END OF COLUMN).

#### THE RISK ASSESSMENT WILL:

- BE KEPT UNDER CONSTANT REVIEW BY ALL TRUST/SCHOOL LEADERS TO ENSURE THE SAFETY OF ALL EMPLOYEES AND STUDENTS
- RESPOND TO ANY CHANGES IN NATIONAL AND LOCAL GUIDANCE
- BE SHARED WITH THE WORKFORCE, PARENTS/CARERS & STUDENTS
- BE CONSULTED UPON WITH TUs Elimination: Substitution: Engineering controls: Administrative controls.

1. Hazards	2.	3. Controls in		4. Ris	k Rating		5. Further Action Required/Recommendations	6.Completed by (DATE)
Identified and potential harm it could cause	People At Risk	Place	L	S	Score	Risk		7. Responsibility (NAME)
a) Contact with	E	PREVENTION					Child or adult with symptoms outside WPT/School	
individuals who	YP							
are unwell -	Р	Managing						
ensure that	C	children and						
those who have	V	adults with					Students, staff and other adults must not come into the school if:	
coronavirus	EM	symptoms in						
(COVID-19)		line with PHE					<ul> <li>they have one or more COVID-19 symptoms</li> </ul>	
symptoms, or		guidance to					<ul> <li>a member of their household (including someone in their support bubble or childcare bubble if they</li> </ul>	
who have		reduce the					have one) has COVID-19 symptoms	
someone in		spread of the					<ul> <li>they are legally required to quarantine,</li> </ul>	
their household		virus	4	4	16	н	<ul> <li>having recently visited countries outside the Common Travel Area</li> </ul>	
who does, are							<ul> <li>they have had a positive test</li> </ul>	
required to self-							<ul> <li>have been in close contact with someone who tests positive for COVID-19</li> </ul>	
isolate for travel								
related reasons,							They must immediately cease to attend and not attend for at least 10 days from the day after:	
or have been								
told by NHS							the start of their symptoms	
Test and Trace							• the test date if they did not have any symptoms but have had a positive LFD or PCR test (if an LFD test	
to self-isolate							is taken first, and a PCR test is then taken within 2 days of the positive lateral flow test, and is negative,	
							it overrides the LFD test and the student can return to school)	

do not attend					
school;					They must follow this process and ensure everyone onsite or visiting is aware of it.
Transmission of					Anyone told to isolate by NHS Test and Trace or by their public health protection team has a legal obligation to
virus due to					self-isolate, but may leave home to avoid injury or illness or to escape the risk of harm. More information can be
insufficient					found on NHS Test and Trace: how it works.
hand hygiene					
					If anyone in school develops a new and continuous cough or a high temperature, or has a loss of, or change in,
					their normal sense of taste or smell (anosmia), the school must:
					<ul> <li>send them home to begin isolation - the isolation period includes the day the symptoms started and</li> </ul>
					the next 10 full days 8
					<ul> <li>advise them to follow the guidance for households with possible or confirmed COVID-19 infection</li> </ul>
					<ul> <li>advise them to arrange to have a test as soon as possible to see if they have COVID-19</li> </ul>
					Other members of their household (including any siblings and members of their support or childcare bubble if
					they have one) should self-isolate. Their isolation period includes the day symptoms started for the first person
					in their household, or the day their test was taken if they did not have symptoms, whether this was a Lateral
					Flow Device (LFD) or Polymerase Chain Reaction (PCR) test), and the next 10 full days. It remains essential
					that anyone who gets a positive result from an LFD result self-isolates immediately, as must other members of
		1			their household, while they get a confirmatory PCR test.
		1			
					If a member of the household starts to display symptoms while self-isolating they will need to restart the 10-day
					isolation period and book a test.
					If anyone tests positive whilst not experiencing symptoms, but develops symptoms during the isolation period,
					they must restart the 10-day isolation period from the day they developed symptoms.
					For a Student or adult who develops symptoms during the school day, please see a section in this risk assessment
					below - 'dealing with a suspected case of Covid-19 in school'.
					Close contact
					A risk assessment may be needed to determine who is a close contact. This can be anyone who:
					<ul> <li>lives in the same household as someone with COVID-19 symptoms or who has tested positive for</li> </ul>
					COVID-19
					<ul> <li>has had any of the following types of contact with someone who has tested positive for COVID-19 with</li> </ul>
					either a PCR test or LFD test (if a confirmatory PCR test is negative, provided it was taken within two
					days of the positive LFD, it overrides the lateral flow test and close contacts can stop self isolating):
					<ul> <li>face-to-face contact including being coughed on or having a face-to-face conversation</li> </ul>
					within 1 metre
		1			<ul> <li>been within 1 metre for 1 minute or longer without face-to-face contact</li> </ul>
		1			• been within 2 metres of someone for more than 15 minutes (either as a one-off contact or
		1			added up together over 1 day)
			1		• travelled in the same vehicle or a plane
		1			
		1			Whilst awaiting the confirmatory PCR result, students and staff and close contacts should continue to self-isolate.
		1			
					If someone who uses transport tests positive, the assessment is likely to take account of factors such as:
		1			vehicle size
		1			degree of face-to-face contact
		1			length of time in close proximity
		1			<ul> <li>whether a Perspex screen is in place</li> </ul>
			1		
		1			Hand washing
		1			A. Staff must ensure (as far is reasonably practical) that students clean their hands regularly, including
	Hand washing	1			
	Hand washing	1			when they arrive at school, when they return from breaks, when they change rooms and before and
	facilities with	1			after eating;
	soap and water	1			B. Students (and staff) are encouraged to wash hands for 20 seconds following PHE guidance. See NHS
	are available in	1			hand washing guidance
	all toilet areas.	4	5	20	C. Hand sanitisers are provided in corridors and classrooms (with 70% alcohol content)
	מוז נטווכנ מוכמז.	1		20	D. Ensure use of hand sanitiser is supervised where necessary to avoid risk of ingestion;
		1			E. Ensure bins emptied regularly throughout the day.

	Guidance on	F. Staff to be reminded regularly to wash their hands for 20 seconds with warm water and soap and the
	hand washing	importance of proper drying.
	can be found at	G. Site staff to make sure toilet areas are always stocked with soap and that washing facilities are
	the below link;	available.
	https://www.nh	H. Reactive cleaners to clean toilets and sinks frequently and checks made hourly. Site manager at the
	s.uk/live-	start and end of the day and staff member/cleaner during the day.
	well/healthy-	
	body/best-way-	
	to-wash-your-	Additional points:
	hands/	Hand washing remains the main method of preventing the spread of the virus. Students will be
		provided with frequent reminders from posters (updated and in-line with the latest guidance and
		advice) strategically placed above each sink.
Transmission of		<ul> <li>Staff to practice and model with the younger children as part of the daily routine as necessary.</li> </ul>
virus due to		Practitioners will support younger children and children with complex needs who may encounter
insufficient		problems handwashing independently.
respiratory		Drinking fountains will be taken out of use.
hygiene		
		Face Coverings
		<ul> <li>As part of the Step 3 roadmap, it has been determined that it is no longer necessary to recommend the additional productionary for accurate measures that were recommended from the 8 Marsh</li> </ul>
		additional precautionary face covering measures that were recommended from the 8 March.
		Erom 17 May in line with Stop 2 of the readman face sourceines will be larger be recommended for
Transmission of		<ul> <li>From 17 May, in line with Step 3 of the roadmap, face coverings will no longer be recommended for students in allocations or communal areas in all schools within the Trust</li> </ul>
virus through		students in classrooms or communal areas, in all schools within the Trust.
insufficient		
cleaning of		<ul> <li>Face coverings are also no longer recommended for staff in classrooms. In all schools, face coverings abauld participate to be user but thefe and violater in situations participate are where participate         </li> </ul>
surfaces		should continue to be worn by staff and visitors in situations outside of classrooms where social distancing is not possible (for example, when moving around in corridors and communal areas).
50110005		distancing is not possible (for example, when moving around in corridors and communal areas).
		Additional points:
		Staff should understand that the wearing of a face covering would not replace the regularity required
		for hand hygiene measures and routines outlined above.
		<ul> <li>Some individuals are exempt from wearing face coverings. This applies to those who: - Cannot put on,</li> </ul>
		wear or remove a face covering because of a physical impairment or disability, illness or mental health
		difficulties. Those who speak to or provide help to someone who relies on lip reading, clear sound or
		facial expression to communicate. Those who rely on visual signals for communication, or
		communicate with or provide support to such individuals.
		Ensuring good respiratory hygiene
		a. Staff and students are reminded regularly to catch coughs and sneezes in tissues - Follow 'Catch it, Bin
		<i>it, Kill it</i> and to avoid touching your face, eyes, nose or mouth with unclean hands.
		b. Tissues will be made available throughout the site/classroom.
		c. Posters and games/rhymes to reinforce key messages.
		d. Where possible windows and doors (not fire doors) need to be left open to ensure that the rooms are
		well ventilated;
		e. Sufficient stocks of tissues/ sanitiser in place for students and staff to use.
	Cleaning	Cleaning
	Frequently	Rigorous checks will be carried out by site managers/caretakers to ensure that the necessary procedures are
	cleaning and	being followed.
	disinfecting	Classroom based equipment (eg: books and games) can be used within the bubble and then thoroughly
	objects and	cleaned more regularly than normal.
	surfaces that	<ul> <li>Surfaces that children are touching, such as toys, books, desks, chairs, doors, sinks, toilets, light</li> </ul>
	are touched	switches – will be cleaned more regularly than normal.
	regularly	Alcohol based hand sanitiser will be available at all times too.
	particularly in	Soft play and soft furnishings minimised in EYFS.
	areas of high	<ul> <li>Prop open internal doors (unless they are fire doors) to reduce contact. Where they are fire doors they</li> </ul>
	use such as	should be cleaned more regularly throughout the day as part of the react clean process.

	health care settings. In all other settings individuals are asked to implement 'protective measures' including social distancing, increased cleaning and practice good hand hygiene. Where RPE is a requirement for risks associated with the work undertaken disposable face coverings will be supplied.					All COVID-19 related monitoring must take place in designated isolation rooms	
Spread of Covid-19 (Coronavirus)	E P P CDELAY To minimise unnecessary c contact and V social mixing EMEMTo minimise contact with other adults/students (social distancing) in the shared areas and classroom in order to reduce the risk of virus transmissionANDAllow contact tracing should there be an outbreak of COVID-19	3	4	12	Med -ium	<ul> <li>PREVENTION, CONTAINMENT AND DELAY MEASURES</li> <li>Schools will retain their current bubbles. However, from 7<sup>th</sup> June the following are permitted</li> <li>Movement of students around schools to facilitate use of specialist classrooms and facilities can take place. Wherever possible, bubbles should not cross.</li> <li>Setting of classes in year groups can return.</li> <li>In the event of a school closure the students of key workers and vulnerable students should be taught in smaller class sizes, remain in consistent groups and these groups should only be taught in one classroom with a fixed seating plan. This is to ensure that in the event of a positive case any close contacts would be kept to an absolute minimum.</li> <li>Staggered start/end times will continue for specific year groups - dependent on school circumstances. Classrooms will be well ventilated (open doors and windows).</li> <li>Students to use own labelled water bottle provided by parents/carers. Cleaned and returned daily. Not left on site.</li> <li>All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between staff and other year groups they should try and keep their distance between other students and staff as much as they can ideally 2m from other adults.</li> <li>Supply teachers, peripatetic teachers and other temporary staff can move between schools. They should minimise contact and maintain as much distance as possible from other staff.</li> <li>Students will line-up, when coming into class, in order of the back row to front row, to avoid students passing each other. Seating plans and strict restrictions on the movement of children and staff will aid test &amp; trace should a need to self-isolate arise.</li> <li>Classrooms furniture (desks and chairs) will be set-up in rows, facing the front except for younger students where this may not be appropriate. HTs will remove all unnece</li></ul>	

Outdoor resources in EYFS should be limited as much as possible and outdoor equipment that is used must be cleaned daily. Equipment and resources in the classroom such as books, games and small world play can be used and shared within the bubble and will be cleaned more frequently/regularly. Role play – all equipment must be 'easily cleanable' and cleaned everyday but all dressing up clothes/role play will be removed
Wherever possible, teachers, of all but the youngest children sustain social distance, by attempting to 'teach from the front of the room'.
PE lessons will be planned to minimise the use of equipment and will focus on active exercise and maintaining social distancing. Any equipment will be limited and will be easily cleaned at the end of each session.
Adults, when circumstances allow, should maintain a 2m distance from students (particularly in Secondary) and avoid close face contact and minimise time spent within 1m of anyone.
Shared resources between bubbles will be cleaned frequently.
Assemblies and collective gatherings will be held virtually only.
School will manage visitors onsite and providers will be met with a combination of advice/guidance and detailed record keeping. Records of visitors will be kept and stored securely for a period of fourteen days to enable test and trace.
Schools will establish an intervention room to support students when required, where this cannot be a separate room it should be connected to the isolation/sanction room.
Staff and students wash hands thoroughly before and after each session. Equipment set up in room prior to start of session. Student(s) collected from classroom and follow member of staff (socially distanced). Desk and equipment cleaned at the end of each day.
Break times and Lunchtimes Break times and lunchtimes will be staggered and outside areas will be divided/demarcated where social distancing cannot be enforced. Students wash hands upon re-entering the building after break/lunchtime. Schools will limit the occupancy of staff/rest rooms and/or find alternative spaces for staff to take refreshments/lunch. Additional electrical devices eg; toasters/kettles must not be taken into classrooms.
<b>Practical lessons</b> Schools should take particular care in music, dance and drama lessons to observe social distancing where possible. This may limit group activity in these subjects in terms of numbers in each group. It will also prevent physical correction by teachers and contact between students in dance and drama.
Additionally, schools should keep any background or accompanying music to levels which do not encourage teachers or other performers to raise their voices unduly. If possible, use microphones to reduce the need for shouting or prolonged periods of loud speaking or singing.
Performances - If planning an indoor or outdoor face-to-face performance in front of a live audience, schools should follow the latest advice in the working safely during COVID-19 in the performing arts guidance <u>https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts</u> which provides details of how to manage audiences as well as carry out performing arts safely. If planning an outdoor
performance schools should also give particular consideration to the guidance on delivering outdoor events <u>https://www.eventsindustryforum.co.uk/index.php/11-features/14-keeping-workers-and-audiences-safe-during-covid-19</u> Schools may wish to still consider alternatives such as live streaming and recording performances, subject to the usual safeguarding considerations and parental permission.
Peripatetic teachers - Schools can continue to engage peripatetic teachers during this period, including staff from music education hubs. Peripatetic teachers can move between schools.
Singing, and playing wind and brass instruments in groups - Singing, wind and brass playing should not take place in larger groups such as choirs and ensembles, or assemblies unless significant space, natural airflow and strict social distancing and mitigation can be maintained.
When planning music provision, you should consider additional specific safety measures. There is some evidence that additional risk can build from aerosol transmission with volume and with the combined numbers of individuals within a confined space. This is particularly evident for singing and shouting, but with appropriate safety mitigation and consideration, singing, wind and brass teaching can still take place. The government has

published advice on safer singing <a href="https://www.gov.uk/government/publications/covid-19-suggested-principles-">https://www.gov.uk/government/publications/covid-19-suggested-principles-</a>
of-safer-singing/covid-19-suggested-principles-of-safer-singing
Playing instruments and singing in groups should take place outdoors wherever possible. If indoors, consider limiting the numbers in relation to the space.
Handling equipment and instructions - Avoid sharing equipment wherever possible
PE coaches will operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they will keep their distance from students and other staff as much as they can, ideally 2 metres from other adults. We recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.
Schools are able to work with external coaches, clubs and organisations for curricular and extra-curricular activities where they are satisfied that it is safe to do so. Outdoor competition between different schools can take place. Changing rooms should not be used unless in an emergency situation or by people with disabilities. Toilet facilities can be accessed. The time spent congregating at a venue before and after the sporting activity should be strictly limited. Participants should arrive in kit, ready to warm up and commence the activity. Participants should bring their own water bottles and should avoid, wherever possible, sharing equipment.
WPT use of Ulley Activity Centre is permitted. Students should not cross bubbles. As minibus use is required, the current group size limit on buses needs to be adhered to. There is a specific separate risk assessment in place for activities at the Ulley Activities Centre.
Swimming lessons are permitted. When minibus use is required, the current group size limit on buses needs to be adhered to.
Indoor competition between different schools can take place.
Should external coach travel be used by a school, prior to confirming the booking the WPT staff member in charge of the trip needs to have access to and approve the risk assessment completed by the coach company. There needs to be seating plan for the children that is adhered to at each stage of the trip.
EXTRA CURRICULAR PROVISION INCL. BREAKFAST CLUB         Schools can work towards resuming all before and after-school activities and wraparound. All parents may access wraparound and extra-curricular provision for their children, without any restrictions on the reasons for which they may attend. Schools should attempt to keep children in consistent groups when accessing these provisions. Smaller groups should be considered when it is not possible to do this. Access to these provisions can be in groups of any number.         When considering appropriate group sizes, it will be important to take into account factors such as the
recommended occupancy levels of the premises you are operating from and levels of ventilation. For example, guidance for providers of grassroots sport and sport facilities recommends that the maximum occupancy of an indoor facility should be limited by providing a minimum of 100sqft per person.
The guidance for providers who run community activities, holiday clubs, after-school clubs, tuition and other out- of-school provision for children may help you to plan extracurricular provision, including appropriate group sizes. Where parents are using external childcare providers or out of school extra-curricular activities for their children, you should also:
<ul> <li>advise them to limit their use of multiple out-of-school settings providers, and to only use one out-of-school setting in addition to school as far as possible.</li> <li>encourage them to check providers have put in place their own protective measures</li> <li>send them the link to the guidance for parents and carers</li> </ul>
If you hire out your premises for use by external wraparound childcare providers, such as after-school or holiday clubs, make sure these organisations have: <ul> <li>considered the relevant government guidance for their sector</li> <li>put in place protective measures</li> </ul>
Schools are able to work with external providers who will come on to the school site, so long as the restrictions above are followed. The school must have a copy of the external provider's risk assessment and consider this risk assessment adequate prior to any agreement being made.

 · · · · · · · · · · · · · · · · · · ·
REMOTE LEARNINGHTs will adapt and adopt the revised WPT safeguarding policy which explicitly recognises the need to manage safeguarding concerns whilst remote learning. All schools will have an online learning policy. All schools will have remote learning policies in place to support students in the event of self-isolation, bubble closures or a full school closure. All schools will ensure that advice for parents and students is accessible online via the school internet. 
TRUST TRANSPORT (DEDICATED)         It is important that wherever it is possible, that:
<ul> <li>social distancing is maximised within vehicles</li> <li>students either sit with their 'bubble' on school transport, or with the same constant group of children each day students clean their hands before boarding transport and again on disembarking</li> <li>additional cleaning of vehicles is put in place</li> <li>organised queuing and boarding is put in place</li> <li>fresh air (from outside the vehicle) through ventilation, is maximised, particularly through opening windows and ceiling vents</li> <li>Ventilation via open windows/vents will be maximised (where possible and appropriate) – weather and speed to be taken into consideration</li> <li>The front row of seats will be left vacant</li> </ul>
LETTINGS Schools are permitted to let out their premises. Each organisation / private individual requiring a letting must produce a risk assessment for their safe use of space. This must be shared by the organisation / private individual and approved by the school and WPT (David Walker email: dwalker@wickersleypt.org) before a decision is made to accept the letting. National Governing Body guidance specific to the activity or sport must be consulted before approval is given.
Changing facilities can only be used in emergency situations, or by disabled people who are taking part in organised sport and physical activity. Toilets will be allowed to open, 30 minutes before and 30 minutes after training and/or matches.
Customers are to be informed of the cleaning arrangements in the facilities they let. This will ensure that they understand the risks. They are permitted to bring cleaning wipes onto premises.
Adult indoor sport is permitted from 17 <sup>th</sup> May.
Sport governing body guidance should be followed regarding numbers of participants and spectators.
EDUCATIONAL VISITS In line with the roadmap, schools were able to resume educational day visits from 12 April.
Any educational day visits must be conducted in line with relevant COVID-secure guidelines and regulations in place at that time. This includes system of controls, such as keeping children within their consistent groups and the COVID-secure measures in place at the destination.
You should undertake full and thorough risk assessments in relation to all educational visits to ensure they can be undertaken safely. As part of this risk assessment, you will need to consider what control measures need to be used and follow wider advice on visiting indoor and outdoor venues. You should consult the health and safety guidance on educational visits when considering visits. <u>https://www.gov.uk/government/publications/health-and-safety-on-educational-visits/health-and-safety-on- educational-visits</u>
Domestic residential educational visits: In line with the roadmap, schools can undertake domestic residential education visits, from 17 May. Any domestic residential educational visits must be conducted in line with relevant COVID-19 guidance and regulations in place at that time. You should keep children within their consistent groups (bubbles) for the purpose of the visit.

							International visits: No international educational visits are currently permitted before September 2021. Should external coach travel be used by a school, prior to confirming the booking the WPT staff member in charge of the trip needs to have access to and approve the risk assessment completed by the coach company. There needs to be seating plan for the children that is adhered to at each stage of the trip.	
				<u> </u>			Response to infection	
Asymptomatic adults in attendance potentially spreading the virus	E YP C V EM	CONTAINMENT AND PREVENTION OF FURTHER SPREAD Identity asymptomatic adults and students	4	4	16	High	Every staff member and secondary school student is being provided with access to a sufficient supply of lateral flow tests to allow them to undertake two tests a week at home. The result of these tests should be registered with the government. The school should be alerted as soon as is practical to any positive tests so that contact tracing can take place. The person with the positive test and the people that they live with should begin self-isolating immediately, for a period of 10 days. Any positive lateral flow test requires a follow up PCR test. This is requested through the NHS. Should the follow up PCR test be negative, self-isolation requirements will cease.	
Suspected case whilst on site	E YP C V EM	CONTAINMENT If a member of staff/student develops a high temperature or a persistent cough while on site.	2	4	8	Med	<ul> <li>School will have a designated room available to isolate students until they can be collected. 							Attendance	
							From 8th March school attendance is mandatory. The exceptions to this are:	
							• If a student is following public health guidance and self-isolating	
							Schools should not encourage parents to request unnecessary medical evidence such as doctors' notes from their GP when their child is absent from school due to illness.	
							Schools are required to provide remote education to students who are unable to attend school because they are complying with government guidance or legislation around coronavirus (COVID-19). Schools should keep a record of this activity but do not need to record it in the attendance register.	
							Schools should use code X if a child is self-isolating or quarantining because of coronavirus (COVID-19) in accordance with relevant legislation or guidance published by PHE or the DHSC.	
							From Thursday 1 April, clinically extremely vulnerable (CEV) students are no longer advised to shield. CEV students must continue to follow the national restrictions that are in place for everyone.	
							Where students are classed as vulnerable and are self-isolating, schools should notify their social worker, where they have one, and agree the best way to maintain contact and offer support.	
Spread of Covid-19 (Coronavirus) Fire evacuation plan	E YP C V EM	Fire safety Ensure Fire/emergency evacuation plans are modified in light of the new procedures for employees and students	2	3	6	Low	<ul> <li>Fire Evacuation <ul> <li>Additional fire practices/rehearsals</li> <li>Headteachers will review escape routes/fire exits for each hub (see Lee Rushforth)</li> <li>All staff will familiarise themselves with evacuation procedures and evacuation routes.</li> <li>The students will leave each hub immediately through their nearest, dedicated fire exit. The immediate safety of students is paramount and takes precedence over social distancing procedures Students will return via their allocated entrance back into the school</li> <li>Staff will accompany the students to the fire assembly point</li> <li>Fire assembly points will have additional markings (2 m apart) to ensure social distancing of employees and students</li> <li>Children must maintain 2m distancing when congregating at their allocated fire assembly point.</li> <li>Both staff and students will be informed in advance of the procedures</li> </ul> </li> </ul>
