

Pupil premium strategy statement

Before completing this template, you should read the guidance on <u>using pupil</u> <u>premium</u>.

Before publishing your completed statement, you should delete the instructions (text in italics) in this template, including this text box.

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Brinsworth Whitehill Primary School
Number of pupils in school	279
Proportion (%) of pupil premium eligible pupils	16%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2021 – 2024
Date this statement was published	Autumn term draft
Date on which it will be reviewed	November 2022
Statement authorised by	
Pupil premium lead	Karla Dobson
Governor / Trustee lead	Jayne Jones

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£59,180 (44 chdilren)
Recovery premium funding allocation this academic year	£6,670
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£59,180

If your school is an academy in a trust that pools this funding, state the amount available to your school this	
academic year	

Part A: Pupil premium strategy plan

Statement of intent

At Brinsworth Whitehill Primary, we are committed to enabling all children to reach their potential. OUr curriculum has four clear intentions that form the basis of our pupil premium Strategy.

- Removing barriers to learning
- Developing knowledge and skills for learning
- Developing personal attributes
- Broadening horizons and providing enrichment opportunities.

Our pupil premium strategy has strong links to our personal development in school. Daily check ins, positive affirmation and social communication supports children with their self-esteem, regulating emotions and knowing that they are cared for and listened to. For children who arrive at school dysregulated, initiations to breakfast club or settling activities are offered so that children are settled and ready to learn.

This open-door policy and positive relationships between staff and children mean that no subject is 'off limits' and open and honest discussion can take place. Children's choices and opinions are respected and celebrated.

Health and well-being is a priority, looking at the whole child and offering a range of enrichment activities that would normally not be accessible. To enhance the take up, golden time activities develop the opportunities our children have access to. This varied range of enrichments raise the aspirations of our children, exposing them to a wider view of the world. Our mantra is work hard, dream big!

With the ever-changing technological world and access to devices, children are taught ways to keep themselves safe. E-safety is a priority for all our learners with regular parent information and e-safety charter being shared across school.

Our children don't all have the opportunity to read widely at home, or be supported in developing a love for reading. Parents do not often have the skills to support their child and have a lack of resources to support this. As a result, the levels of language, phonics and speaking and listening for these children are often low.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Low aspirations and lack of opportunities for enrichment beyond school.
2	Low self-esteem and arrive at school dysregulated.
3	Attendance and punctuality is low
4	43% of children have Special Educational Needs or additional needs
5	Our children come to school with limited language and communication skills, particularly in the early years.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Children will access a range of enrichment activities which will enhance their aspirations, develop personal attributes and life skills.	 Increased % of PP children to access after-school clubs and all children to access a range of golden time clubs. PP children will have priority for clubs with discounted/fully funded places available. Children will follow the Whitehill way, achieve a Whitehill Wonder and be engaged in the Whitehill Pledges.
Children will have the opportunity to attend breakfast club or take part in a settling activity prior to starting the school day.	Within class, children are settled and engaged in their learning. Strategies are developed to enable the child to manage their feelings and mental well-being.
Children will attend school regularly and on time. If attendance is below 96%, children will improve their attendance to become in-line with school's target.	 Reduction of late arrivals to school. Monitoring of attendance by KD and AW.\ Follow the school's rigorous graduated response (see tracker) Improved attendance
Remove barriers to learning for children with additional needs ensuring small steps of progress are made that are bespoke to each individual (for children with SEND – See PSP)	 Children are referred to external agencies where appropriate. Interventions are strategically planned for and delivered by TAs, including nurture activities, ELSA, Lego therapy etc.
To improve children's oral communication, language acquisition and vocabulary skills to be able and qualified to be successful learners	 NELI intervention demonstrates impact – FS2 (Spring term). Children are confident communicators, increasing the percentage of children working at the expected standard. Increase in percentage of children reaching the expected standards in phonics, reading and writing over the next 3 years.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £11,156

Activity	Evidence that supports this approach	Challenge number(s) addressed
Personalised & whole school targeted CPD programme in curriculum areas/ strands identified for all staff £3000	EFF guide to pupil premium-tiered approach-teaching is top priority ensuring 'Quality First Teaching' including CPD	1, 2, 4, 5
Highly qualified and experienced cover for release of Attendance lead - £2156		3
Fluency project training and organisation £1000	The average impact of reading comprehension strategies is an additional six months' progress over the course of a year. Successful reading comprehension approaches allow activities to be carefully tailored to pupils' reading capabilities, and involve activities and texts that provide an effective, but not overwhelming, challenge.	5
Curriculum lead CPD £5000	EFF guide to pupil premium-tiered approach-teaching is top priority ensuring 'Quality First Teaching' including CPD	1, 2, 4, 5

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £13,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
NELI intervention £1000	EEF - The average impact of Oral language interventions is approximately an additional six months' progress over the course of a year. Some studies also often report improved classroom climate and	5

	fewer behavioural issues following work on oral language.	
Fluency Project £1000	The evidence shows that children can make up to 2 years 3 months progress within the 8 week intervention.	5
School led interventions either 1-1 or small group.	EEF (+4months) Small group interventions/teaching groups will enable teachers to personalise learning, address gaps, pre-teach, same day misconceptions,1:1 reading etc to provide a	1-1 reading (TA) KEyre 6hours 15 mins per week Booster classes Teacher
£8000	flexible more responsive approach for pupils who are falling behind. It will be used as a more general strategy to ensure progress for pupils who fit into more than one vulnerable group. We have identified that our year 3 and 4 cohorts have been most impacted by the pandemic due to part school closures, home schooling and disrupted education.	led (2 hours) x 6 weeks Literacy breakfast booster 2x 1 hour Numeracy breakfast booster 2 x 1 hour
Legotherapy and ELSA Learning Mentor £3000	Therapy Focus - Playing with LEGO® in a therapy setting promotes social interaction, turn-taking skills, sharing, collaborative problem-solving and the learning of concepts. It can be used to target goals around social skills, language and motor skills. By using a commonly adored tool like LEGO® it capitalises on its existing motivation and supports self-esteem by allowing the participants to demonstrate their skills in a social situation. It also sets up a positive opportunity for guided social problem-solving to help develop social skills that can then be used in other situations	

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £35,500

Activity	Evidence that supports this approach	Challenge number(s) addressed
Enrichment opportunities - including John Bell extended schools provision for after school clubs and golden time £7000	Children taking part in after school clubs EEF	Challenge 1
Financial support for: Trips - £2500 Residential - £1800	York Consulting into Learning - Long- term follow-up responses after a residential experience found that: • 84% of KS2 students felt that they knew their teachers better,	Challenge 1

	and 75% felt they got on better with their peers. Residentials provide an opportunity to break down the barriers between pupils and teachers, and education and the classroom. Relationships can be forged and built upon over the course of a trip that may not have naturally grown in the traditional school environment Ofsted: in a 2008 report about learning outside the classroom, it stated: "When planned and implemented well, learning outside the classroom contributed significantly to raising standards and improving pupils' personal, social and emotional development."	
Uniform and pupil leaders £2000	Evidence shows that pupils who engage with pupil leadership programmes have a positive impact on their capacity for learning increases. EDT	Challenge 2
Free Breakfast and Tea Club 3.50 per sessions £18,000	IFS – Children who come to school hungry are less attentive, more disruptive and less likely to understand and remember the day's lessons Study - Year 2 children (aged 6/7) whose schools were offered support to open a breakfast club made the equivalent of two months' additional progress in reading, writing and maths over the course of a year compared with students in the control group of schools. Year 6 children (aged 10/11) had similar gains in English, though the effects on maths and science were smaller.	Challenge 2
Improving punctuality and attendance through rigorous tracking and monitoring and celebrations. • Home visits • Daily contact • Attendance panel meetings • Support for families Cost of attendance rewards, learning mentor support £3000	Improving school attendance: Support for school and local authorities - DFE Rewards for attendance	Challenge 3
ELSA and Legotherapy, Learning Mentor Support. Attendance in TAF meetings, bereavement work etc. £1200		Challenge 2 Challenge 4

Total budgeted cost: £59,656

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

Extended Schools Provision

All PP children had access to golden time and after school provision delivered by teachers/external providers. Limited number due to COVID restrictions. Children who are talented at sports, participated freely in the school sports festivals both in and out of school. Increasing number of PP children completing their homework online (Dojo) — raising levels of progress and attainment.

Remediation:

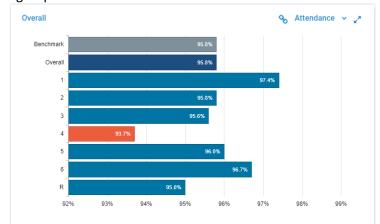

All staff aware of children entitled to pupil premium and children tracked as a vulnerable group. Analysis of pupil premium children identified specific interventions to support children to overcome individual barriers to learning.

Attendance

Whole school attendance - 95.8%

PA - 9.8%

Year group

- Gender Female 95.7% Male 96%
- Vulnerable groups

PP - 93%

SEND - 93.1%

EAL - 95.1%

Subsidies:

Provided better, more inclusive and cost effective provision. Resources for children and their families to support early intervention and improve their educational and personal welfare barriers when home learning - e.g. access to chromebooks, internet.

Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.

If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?

- 1)To improve standards and outcomes in English and Maths so that children achieve more in line with children nationally:
- Teacher Assessment in Y6 showed the following increases in performance from 2019 (last published national data) Reading 71% (increase of 18%) Writing 67% (increase of 4%) Maths 79% (increase of 22%) EGPS 83% (increase of 33%) Teacher Assessment in Y2 showed the following increases in performance from 2019 (last published national data) Reading 64% (increase of 1%) Writing 68% (increase of 22%) Maths 72% increase of 15% Phonics results current Y2 88%. Current Y3 93% passed screen in 2021
- 2) To improve the attendance of specific Pupil Premium families
 - Despite the covid pandemic we were able to secure the attendance of our Pupil premium children either by being in school or virtually attending lessons. Virtual attendance was at least 95% in every class from January to March 2021 for online lessons. Children who did not attend live lessons were contacted by the safeguarding team or class teacher at least weekly.
- 3) To improve the consistency of good or better teaching and learning so that PP children close the gap with their peers:
- Monitoring of the quality of teaching across the school and tracking of pupil progress
 has evidenced that gaps between school and national closed and pupils continue to
 achieve and know more. Targeted pupils demonstrate accelerated progress in their
 interventions.
 - Effective teaching of phonics and early reading in KS1 has resulted in high phonics scores in 2021. Where language and speech has been targeted these children also show improve literacy, language and phonics skills in the last year.
 TAs and teachers monitor progress in lessons and evidence in books and

learning walks shows that they intervene to ensure any misconceptions are dealt with swiftly. The quality of teaching is now good across the school.

- 4) The learning mentors / support staff worked with families to identify bespoke support according to need.
 - Safeguarding was the highest priority and children were supported in school, and via phone calls / visits made to homes. -
- Attendance remained high
- Children were given bespoke support to ensure any anxiety around being in school or transition through covid had the least possible impact on the children's mental health and wellbeing with the support of WMIM, school staff.
- Daily active lessons engaged children in physical activity which improved engagement, confidence and well-being.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider
n/a	

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details
How did you spend your service pupil premium allocation last academic year?	n/a
What was the impact of that spending on service pupil premium eligible pupils?	

Further information (optional)

Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, or other activity that you are implementing to support disadvantaged pupils, that is not dependent on pupil premium or recovery premium funding.
